SKI - FAT BIKE - SNOWSHOE

Share The Experience

Welcome:

Enjoy this multi-use trail as you meander thru a section of gentle quiet forest before stopping to take in the beauty of the lower AuSable River. The Corsair Trail Council and the U.S. Forest Service are key partners in this Eagle Run Trails project. The trail council is a 501(c)3 non-profit community volunteer organization that performs trail maintenance and winter snow grooming operations. The dedicated volunteers need the financial support of trail users to fund grooming equipment and the related expenses that provide this healthy recreational trail experience.

Trail Rules and Etiquette

All Trail Users:

- Support trail grooming by purchasing a trail button. Buttons are available at area businesses.
- No walking on or damaging the groomed trail. If you must walk, *due to an emergency*, do so on the edge of the trail.
- Bikes yield to skiers who yield to snowshoers.
- Be an ambassador for winter sports - stay polite, educate other users, discourage bad behavior, follow the rules, support grooming, and we'll all have a good time this winter.

Fat Bike Riders:

- Tires must be 3.7" or bigger. Tire Pressure: 8 psi or less.
- Temperature: Below 30 degrees. If it is above 30 degrees you should not be riding on the soft trails.
- If you are leaving a rut deeper than an inch, having a hard time riding in a straight line, or pushing your bike, the snow is too soft and you absolutely should not be biking on the trails.
