Discover Nature

Hiking/ Cross Country/ Snowshoeing

With more than 35,000 acres of unique trails that transverse from coastal sand dunes to towering pines and hardwoods, it's a naturalist's dream.

Start off your day at *Eagle Run* which offers marked trails along the AuSable River that go from level to gently and moderate rolling hills.

Continue onto the *Highbanks Trail*. This footpath begins at largo Springs and continues 6.5 miles to Sidtown, passing along the way the historical place of Lumberman's Monument. Hikers, Skiers and Snowshoers will travel over the same ridges of the sandy high banks that loggers used to roll their timber into the river. Trails are ungroomed in the winter months.

Reid Lake Trail Area consists of 12 miles of trails. Adventurers will find a large beaver pond, many marshes and bogs. Back country skiers will enjoy the well-marked trails.

Hoist Lake encompasses 22 miles of trails which offer a unique chance to climb a ridge and perch on the crest to take in the panoramic view. This quiet sanctuary sits amongst 10,600 acres creating the finest backpacking, back country skiing and attractive remote campsites.

Corsair Skiing and Hiking Trails are renowned for their 44 miles of groomed trails nestled in the Silver Valley. Skiers can experience any level of cross country skiing and find well-marked trails and a warming hut.

Birding

The Oscoda Ausable area offers many opportunities for the birders pleasure. Where the Ausable River meets Lake Huron you can view all types of Gulls, including California, Icelandic, Glaucious and Blackback; not to mention Caspian Foster, plovers and ducks.

Not far away the former Air Force Base has turned into vast grassland. You may catch a glimpse of Grasshopper and Savannah Sparrows, Bobolinks, Horned Lakes, American Pipits and Kestrel.

Tuttle Marsh is home to nesting Osprey, Marsh Wrens, Bitterns(American and Least), and many Warblers including the Golden Winged. While Clarke's Marsh boasts the most productive Eagle's nest in the area along with numerous marsh birds.

Our area also supports a Kirtland's Warbler habitat and the lower Ausable is an "Important Bird Area" for the wintering Trumpeter Swan.

Make sure you make a stop at the Shoreline Park where you can view 90 different species of birds from the viewing platform.
